Being at your command is our pleasure!

Dear customers
Ladies and gentlemen

I would herewith like to announce you that after many exciting years of experience in the world of buses I decided to create my own business.

It is a great pleasure for me to inform you at the same time that I have been able to win the renowned company J. Windlin AG, motor-garage in 6064 Kerns, Switzerland as my partner.

Together we intend to import buses with the object to distribute them on the Swiss market.

Our slogan "being at your command is our pleasure" means that we are seriously willed to face the great challenge in being reliable partners to you in all situations. This also concerns the After Sales Service which will be assured by the highly qualified team of the garage J. Windlin AG (www.windlin.ch).

In our sales program you will find mini buses, school buses, city-and country-liners as well as coaches.

We are at your disposal for further information's and look forward to hearing from you soon.

Busarena
